33-36-01-01. Definitions. Words defined in North Dakota Century Code chapter 23-27 have the same meaning in this chapter.

1. "Cardiopulmonary resuscitation", initial and refresher, means the American heart association health care provider standards or its equivalent which includes the following skills: adult one and two person cardiopulmonary resuscitation, adult obstructed airway, child one and two person cardiopulmonary resuscitation, child obstructed airway, infant cardiopulmonary resuscitation, infant obstructed airway, and automated external defibrillator.
2. "Certification scope enhancement programs" means those certification programs which add additional skills to or refresh existing skills obtained from the primary certification programs.
3. "Department" means the state department of health.
4. "Equivalent" means training of equal or greater value which accomplishes the same results as determined by the department.

5. "National registry" means the national registry of emergency medical technicians located in Columbus, Ohio.
6. "Prehospital emergency medical services personnel" are those persons certified or licensed under the programs defined in this chapter.
7. "Primary certification programs" means those certification programs which integrate a broad base of skills necessary to perform within a level of the emergency medical services system as determined by the department.

History: Effective April 1, 1992; amended effective August 1, 2003; January 1, 2006.

General Authority: NDCC 23-27-04.3

Law Implemented: NDCC 23-27-04.3

33-36-01-02. Emergency medical services training courses. The department shall establish training, testing, and certification requirements for the following emergency medical services courses:

1. Primary certification courses:
 - a. First responder;
 - b. Emergency medical technician;
 - c. Emergency medical technician-basic;
 - d. Emergency medical technician-intermediate/85;
 - e. Emergency medical technician-intermediate/99;
 - f. Emergency medical technician-paramedic;
 - g. Advanced first aid ambulance attendant;
 - h. Emergency vehicle operations;
 - i. Emergency medical dispatch; and
 - j. Automobile extrication.
2. Certification scope enhancement courses:
 - a. Manual defibrillation;
 - b. Intravenous maintenance;

- c. Flight medical crew;
 - d. Automobile extrication instructor;
 - e. Emergency medical services instructor;
 - f. Epinephrine administration;
 - g. Dextrose administration;
 - h. Bronchodilator/nebulizer administration;
 - i. Multi-lumen airway insertion; and
 - j. Emergency vehicle operations instructor.
3. Certification refresher courses:
- a. First responder-refresher;
 - b. Emergency medical technician-basic refresher;
 - c. Emergency medical technician-intermediate/85 refresher;
 - d. Emergency medical technician-intermediate/99 refresher; and
 - e. Emergency medical technician-paramedic refresher.

History: Effective April 1, 1992; amended effective October 1, 1992; August 1, 1994; August 1, 2003; August 1, 2004; January 1, 2006.

General Authority: NDCC 23-27-04.3

Law Implemented: NDCC 23-27-04.3

33-36-01-03. Training, testing, certification, and licensure standards for primary certification courses. The department shall authorize the conduct of courses, the testing of students, and the certification or licensure of personnel when application has been made on forms provided and in the manner specified by the department contingent on the following requirements:

- 1. First responder:
 - a. Curriculum. The course curriculum must be that issued by the United States department of transportation, national highway traffic safety administration, in the edition specified by the department.
 - b. Textbooks. The department shall approve textbooks.

- c. Course coordinator. The course coordinator must be licensed by the department as an emergency medical services instructor and must be currently certified as a first responder or its equivalent.
 - d. Testing. The student must correctly answer at least seventy percent of the questions on a written examination specified by the department or the national registry and pass all stations of a practical examination conducted by the course coordinator. The practical examination must consist of no less than one medical, one cardiopulmonary resuscitation, and one trauma station.
 - e. Initial certification. The department shall issue initial certification to persons who have completed an authorized course and passed the testing process, or are certified as a first responder by the national registry. Persons passing the testing process between January first and June thirtieth shall be certified until June thirtieth of the second year, or ninety days past their national registry expiration date if they are nationally registered. Persons passing the testing process between July first and December thirty-first shall be certified until June thirtieth of the third year, or ninety days past their national registry expiration date if they are nationally registered.
 - f. Recertification. The department shall recertify for a two-year period expiring on June thirtieth, or ninety days past their national registry expiration date if they are nationally registered, to those persons who have met one of the following requirements:
 - (1) Completion of a sixteen-hour North Dakota first responder refresher course.
 - (2) Completion of a twenty-four hour emergency medical technician-basic refresher course.
2. Emergency medical technician and national registry emergency medical technician-basic:
- a. Curriculum. The course curriculum must be that issued by the United States department of transportation, national highway traffic safety administration, in the edition specified by the department.
 - b. Textbooks. The department shall approve textbooks.
 - c. Course coordinator. The course coordinator must be licensed by the department as an emergency medical services instructor and must be currently licensed as an emergency medical technician or its equivalent.
 - d. Course instructors. The primary course instructor must be licensed by the department as an emergency medical services

instructor and must be currently licensed as an emergency medical technician or its equivalent. The primary instructor must teach at least fifty percent of the lecture portion of the course. Secondary instructors must be currently licensed as an emergency medical technician or its equivalent.

- e. Testing. Students must pass the written examination and a practical examination specified by the department which meets the national registry's standards or its equivalent in order to be eligible for licensure. The content of the practical examination must be determined by the department, and the department shall establish policies regarding retesting of failed written and practical examinations.
- f. Emergency medical technician initial licensure. The department shall issue initial licensure as an emergency medical technician to persons under the age of eighteen who have completed an authorized course and passed the testing process or those who have requested reciprocity from another state with equivalent training. Persons passing the testing process between January first and June thirtieth shall be licensed until June thirtieth of the second year. Persons passing the testing process between July first and December thirty-first shall be licensed until June thirtieth of the third year.
- g. Emergency medical technician-basic initial licensure. A person eighteen years of age or older who has completed an authorized course and passed the testing process shall obtain certification from the national registry. Persons obtaining national registry certification will be licensed by the department expiring ninety days after their national registry expiration date.
- h. Recertification of emergency medical technicians. The department shall relicense for a two-year period expiring June thirtieth those persons who have met all of the following requirements:
 - (1) Completion of a twenty-four hour emergency medical technician-basic refresher course which includes a cardiopulmonary resuscitation health care provider refresher, answering correctly at least seventy percent of the questions on a written examination specified by the department and passing a local practical examination meeting the department's requirements.
 - (2) Completion of forty-eight hours of continuing education as approved by the department or the national registry.
- i. Recertification of emergency medical technicians-basic. Emergency medical technicians-basic must be recertified by

the national registry recertification policies. Persons recertified by the national registry will be relicensed by the department for a two-year period expiring ninety days after their national registry expiration date.

3. Emergency medical technician-intermediate/85:
 - a. Student prerequisite certification. Students must be certified or licensed as an emergency medical technician or its equivalent prior to testing.
 - b. Curriculum. The course curriculum must be that issued by the United States department of transportation, national highway traffic safety administration, in the edition specified by the department.
 - c. Textbooks. The department shall approve textbooks.
 - d. Course coordinator. The course coordinator must be licensed by the department as an emergency medical services instructor and must be currently licensed as an emergency medical technician-intermediate/85 or its equivalent.
 - e. Course instructors. The primary course instructor must be licensed by the department as an emergency medical services instructor and must be currently licensed as an emergency medical technician intermediate/85 or its equivalent. The primary instructor must teach at least fifty percent of the lecture portion of the course. Secondary instructors must be currently licensed as an emergency medical technician intermediate/85 or its equivalent.
 - f. Testing. Students must pass the written and practical examinations as provided by the national registry and administered by the department in order to be eligible for licensure.
 - g. Emergency medical technician-intermediate/85 initial licensure. A person eighteen years of age or older who has completed an authorized course and passed the testing process shall obtain certification from the national registry. Persons obtaining national registry certification and in compliance with chapter 50-03-03 will be licensed by the department expiring ninety days after their national registry expiration date.
 - h. Relicensure of emergency medical technician-intermediate/85. Emergency medical technician-intermediate/85 must be recertified by the national registry recertification policies. Persons recertified by the national registry and in compliance with chapter 50-03-03 will be relicensed by the department for a two-year period expiring ninety days after their national registry expiration date.

4. Emergency medical technician-intermediate/99:
 - a. Student prerequisite certification or license. A student must be certified or licensed as an emergency medical technician or its equivalent prior to testing.
 - b. Curriculum. The course curriculum shall be that issued by the United States department of transportation, national highway traffic safety administration, in the addition specified by the department.
 - c. Textbooks. The department shall approve textbooks.
 - d. Course coordinator. The course coordinator must be licensed by the department as an emergency medical services instructor and must be currently licensed as an emergency medical technician-intermediate/99 or its equivalent.
 - e. Course instructors. The primary course instructor must be licensed by the department as an emergency medical services instructor and must be currently licensed as an emergency medical technician intermediate/99 or its equivalent. The primary instructor must teach at least fifty percent of the lecture portion of the course. Secondary instructors must be currently licensed as an emergency medical technician intermediate/99 or its equivalent.
 - f. Testing. Students must pass the written and practical examinations as provided by the national registry and administered by the department in order to be eligible for licensure.
 - g. Emergency medical technician-intermediate/99 initial licensure. A person eighteen years of age or older who has completed an authorized course and passed the testing process shall obtain certification from the national registry. Persons obtaining national registry certification and in compliance with chapter 50-03-03 will be licensed by the department expiring ninety days after their national registry expiration date.
 - h. Relicensure of emergency medical technician-intermediate/99. An emergency medical technician-intermediate/99 must be recertified by the national registry recertification policies. Persons recertified by the national registry and in compliance with chapter 50-03-03 will be relicensed by the department for a two-year period expiring ninety days after their national registry expiration date.
5. Emergency medical technician-paramedic:

- a. Student prerequisite certification. Students must be certified or licensed as an emergency medical technician or its equivalent prior to testing.
 - b. Curriculum. The course curriculum must be that issued by the United States department of transportation, national highway traffic safety administration, in the edition specified by the department.
 - c. Textbooks. The department shall approve textbooks.
 - d. Course coordinator. The course coordinator must be licensed by the department as an emergency medical services instructor and must be currently licensed as an emergency medical technician-paramedic or its equivalent.
 - e. Course instructors. The primary course instructor must be licensed by the department as an emergency medical services instructor and must be currently licensed as an emergency medical technician-paramedic or its equivalent. The primary instructor must teach at least fifty percent of the lecture portion of the course. Secondary instructors must be currently licensed as an emergency medical technician-paramedic or its equivalent.
 - f. Field internship. Courses must provide field internship experience based on the curriculum requirements for patient contacts with a paramedic preceptor.
 - g. Testing. A student must pass the written and practical examinations as provided by the national registry and administered by the department in order to be eligible for licensure.
 - h. Emergency medical technician-paramedic initial licensure. A person eighteen years of age or older who has completed an authorized course and passed the testing process shall obtain certification from the national registry. Persons obtaining national registry certification and in compliance with chapter 50-03-03 will be licensed by the department expiring ninety days after their national registry expiration date.
 - i. Recertification of emergency medical technician-paramedic. An emergency medical technician-paramedic must be recertified by the national registry recertification policies. Persons recertified by the national registry and in compliance with chapter 50-03-03 will be relicensed by the department for a two-year period expiring ninety days after their national registry expiration date.
6. Advanced first aid ambulance attendant:

- a. Advanced first aid ambulance attendant initial certification. The department shall issue initial certification to persons currently certified in American national red cross advanced first aid and who demonstrate a minimum of two years experience with a North Dakota licensed ambulance service as evidenced by North Dakota ambulance service license application personnel rosters.
 - b. Recertification of advanced first aid ambulance attendants. The department shall recertify for a three-year period, expiring on June thirtieth, those persons who have completed a twenty-four hour emergency medical technician-basic refresher course, which includes a cardiopulmonary resuscitation refresher, answering correctly at least seventy percent of the questions on a written examination specified by the department and passing a local practical examination meeting the department's requirements.
7. Emergency vehicle operations:
- a. Curriculum. The course curriculum must be that issued by the United States department of transportation, national highway traffic safety administration, in the edition specified by the department.
 - b. Course coordinator. The course coordinator must be certified by the department as an emergency vehicle operation instructor.
 - c. Testing. The students must correctly answer at least seventy percent of the questions on a written examination and pass a practical examination specified by the department.
 - d. Initial certification. The department shall issue initial certification to persons who have completed an authorized course and passed the testing process. Persons passing the testing process between January first and June thirtieth must be certified until June thirtieth of the second year. Persons passing the testing process between July first and December thirty-first must be certified until June thirtieth of the third year.
 - e. Recertification. The department shall recertify for a two-year period those persons who complete the department's six-hour refresher course.
8. Emergency medical dispatch:
- a. Curriculum. The course curriculum must be that issued by the United States department of transportation, national highway traffic safety administration, in the edition specified by the department.

- b. Course coordinator. The course coordinator must be approved by the department as an emergency medical dispatch instructor.
 - c. Testing. The student must correctly answer at least seventy percent of the questions on a written examination specified by the department.
 - d. Initial certification. The department shall issue initial certification to persons who have completed an authorized course and passed the testing process. Persons passing the testing process between January first and June thirtieth must be certified until June thirtieth of the second year. Persons passing the testing process between July first and December thirty-first must be certified until June thirtieth of the third year.
 - e. Recertification. The department shall recertify for a two-year period those persons who have completed a seven-hour refresher as designated by the department.
9. Automobile extrication:
- a. Curriculum. The course curriculum must be approved by the department.
 - b. Course coordinator. The course coordinator must be certified by the department as an automobile extrication instructor.
 - c. Testing. The student must correctly answer at least seventy percent of the questions on a written examination specified by the department.
 - d. Initial certification. The department shall issue initial certification to persons who have completed an authorized course and passed the testing process. Persons passing the testing process between January first and June thirtieth must be certified until June thirtieth of the second year. Persons passing the testing process between July first and December thirty-first must be certified until June thirtieth of the third year.
 - e. Recertification. The department shall recertify for a two-year period those persons who complete the department's six-hour refresher course and pass a written examination specified by the department.

History: Effective April 1, 1992; amended effective August 1, 1994; August 1, 2003; January 1, 2006.

General Authority: NDCC 23-27-04.3

Law Implemented: NDCC 23-27-04.3

33-36-01-03.1. Limited temporary certification or licensure of emergency medical services training course graduates.

1. An individual that has graduated from a department-authorized emergency medical services training course as an emergency medical technician, emergency medical technician - intermediate, or emergency medical technician - paramedic and has submitted a completed application signed by a physician and an official transcript verifying program completion may be issued a limited certification or license one time. A limited temporary certification or licensure allows the graduate to be employed while awaiting results of the graduate's national registry examination. The limited temporary certification or licensure expires ninety days after the date of issue.
2. The graduate must practice under the direct supervision of a person certified or licensed at an equal or greater level. Direct supervision means close physical and visual proximity. The graduate may not be the primary care provider.

History: Effective January 1, 2006.

General Authority: NDCC 23-27-04.3

Law Implemented: NDCC 23-27-04.3

33-36-01-04. Training, testing, and certification standards for certification scope enhancement courses. The department shall authorize the conduct of courses, the testing of students, and the certification or licensure of personnel when application has been made on forms provided and in the manner specified by the department contingent on the following requirements:

1. Manual defibrillation:
 - a. Student prerequisite certification. A student must be licensed as an emergency medical technician or its equivalent.
 - b. Curriculum. The course curriculum must be that issued by the department entitled "Manual Defibrillator/Monitor Curriculum".
 - c. Course coordinator. The course coordinator must be licensed by the department as an emergency medical services instructor and must be currently certified by the American heart association in advanced cardiac life support or its equivalent.
 - d. Testing. The student must correctly answer at least seventy percent of the questions on a written examination specified by the department and pass all portions of a practical examination specified by the department. The practical examination must consist of the manual defibrillation of a simulated cardiac arrest patient and correctly identify eleven out of thirteen static cardiac strips.

- e. Initial certification. The department shall issue initial certification to persons who have completed an authorized course and passed the testing process. Persons passing the testing process between January first and June thirtieth shall be certified until June thirtieth of the second year. Persons passing the testing process between July first and December thirty-first shall be certified until June thirtieth of the third year.
- f. Recertification. The department shall recertify for a two-year period those persons who have met all of the following requirements:
 - (1) Quarterly review of the manual defibrillation process conducted by a person trained at least to the emergency medical technician level and certified in manual defibrillation.
 - (2) Successful completion of a written and practical examination specified by the department.

2. Intravenous therapy maintenance:

- a. Student prerequisite certification. A student must be licensed as an emergency medical technician or its equivalent.
- b. Curriculum. The course curriculum must be that issued by the department entitled "EMT IV Maintenance Module".
- c. Course coordinator. The course coordinator must be licensed by the department as an emergency medical services instructor, and currently certified in intravenous therapy maintenance, or its equivalent.
- d. Testing. The student must correctly answer at least seventy percent of the questions on a written examination specified by the department and pass all portions of a practical examination specified by the department. The practical examination must consist of performing intravenous maintenance skills on a mannequin.
- e. Initial certification. The department shall issue initial certification to persons who have completed an authorized course and passed the testing process. Persons passing the testing process between January first and June thirtieth shall be certified until June thirtieth of the second year. Persons passing the testing process between July first and December thirty-first shall be certified until June thirtieth of the third year.
- f. Recertification. The department shall recertify for a two-year period those persons who have completed the department's one-hour refresher course, written examination, and practical examination.

3. Flight medical crew:

- a. Student prerequisite certification. A student must be an emergency medical technician or its equivalent.
- b. Curriculum. The course curriculum must be that issued by the United States department of transportation, national highway traffic safety administration, in the edition specified by the department or its equivalent.
- c. Course coordinator. The department shall approve the course coordinator.
- d. Initial certification. The department shall issue initial certification to persons who have completed an authorized course. A person who has completed an authorized course between January first and June thirtieth shall be certified until June thirtieth of the second year. Persons passing the testing process between July first and December thirty-first shall be certified until June thirtieth of the third year.
- e. Recertification. The department shall recertify for a two-year period those persons who have completed the department's four-hour refresher course or complete eight hours of air medical related education as approved by the department.

4. Automobile extrication instructor:

- a. Curriculum. The course curriculum must be approved by the department.
- b. Student prerequisite. The candidate for this course must be currently certified in automobile extrication with at least two years of certified automobile extrication experience.
- c. Course coordinator. The department shall designate the course coordinator.
- d. Testing. The student must correctly answer at least seventy percent of the questions on a written examination specified by the department.
- e. Initial certification. The department shall issue initial certification to persons who have completed an authorized course and passed the testing process. Persons passing the testing process between January first and June thirtieth shall be certified until June thirtieth of the second year. Persons passing the testing process between July

first and December thirty-first shall be certified until June thirtieth of the third year.

- f. Recertification. The department shall recertify for a two-year period those persons who have satisfactorily conducted an automobile extrication course or have audited eight hours of an automobile extrication instructor course before the expiration date of their certification.

5. Emergency medical services instructor:

- a. Student prerequisite. An individual must be at least eighteen years of age and certified or licensed for at least two years as a patient care provider at the level the individual will instruct at, in order to be licensed.
- b. Curriculum. The course curriculum must be that issued by the United States department of transportation, national highway traffic safety administration, in the edition specified by the department or its equivalent.
- c. Course coordinator. The course coordinator must be licensed by the department as an emergency medical services instructor.
- d. Initial licensure. The department shall issue initial licensure to persons who have completed an authorized course. Persons completing the course between January first and June thirtieth shall be licensed until June thirtieth of the second year. Persons completing the course between July first and December thirty-first shall be licensed until June thirtieth of the third year.
- e. Recertification. The department shall relicense for a two-year period those persons who have completed the department's eight-hour recertification course, or those persons that are employed or affiliated with a licensed training institution, may submit documentation of eight hours of adult education training to satisfy the recertification requirements.

6. Epinephrine administration:

- a. Student prerequisite certification. A student must be certified as a first responder or its equivalent.
- b. Curriculum. The course curriculum must be that issued by the department entitled " Epinephrine Administration Module".
- c. Course coordinator. The course coordinator must be licensed by the department as an emergency medical services instructor

and must be currently certified in epinephrine administration or its equivalent.

- d. Testing. The student must correctly answer at least seventy percent of the questions on a written examination specified by the department and pass all portions of a practical examination specified by the department. The practical examination must consist of performing subcutaneous injection of epinephrine with the use of a preloaded, self-injecting device such as the epipen trainer.
- e. Initial certification. The department shall issue initial certification to persons who have completed an authorized course and passed the testing process. Persons passing the testing process between January first and June thirtieth shall be certified until June thirtieth of the second year. Persons passing the testing process between July first and December thirty-first shall be certified until June thirtieth of the third year.
- f. Recertification. The department shall recertify for a two-year period those persons who have completed the department's one-hour refresher course, written examination, and practical examination.

7. Dextrose administration:

- a. Student prerequisite licensure. A student must be licensed as an emergency medical technician-intermediate or its equivalent.
- b. Curriculum. The course curriculum must be that issued by the department entitled "EMT-I – 50% Dextrose Administration Module".
- c. Course coordinator. The course coordinator must be licensed by the department as an emergency medical services instructor and must be licensed in dextrose administration or its equivalent.
- d. Testing. The student must correctly answer at least seventy percent of the questions on a written examination specified by the department and pass all portions of a practical examination specified by the department. The practical examination must consist of administration of the drug by aseptic injection into intravenous administration tubing.
- e. Initial certification. The department shall issue initial certification to persons who have completed an authorized course and passed the testing process. Persons passing the testing process between January first and June thirtieth shall be certified until June thirtieth of the second year. Persons passing the testing process between July

first and December thirty-first shall be certified until June thirtieth of the third year.

- f. Recertification. The department shall recertify for a two-year period those persons who have completed the department's one-hour refresher course, written examination, and practical examination.

8. Bronchodilator/nebulizer administration:

- a. Student prerequisite licensure. A student must be licensed as an emergency medical technician or its equivalent.
- b. Curriculum. The course curriculum must be the general pharmacology and the respiratory emergencies sections of the curriculum issued by the United States department of transportation, national highway traffic safety administration, for emergency medical technicians-basic, in the edition specified by the department, or its equivalent.
- c. Course coordinator. The course coordinator must be licensed by the department as an emergency medical services instructor and be certified in bronchodilator administration or its equivalent.
- d. Testing. The student must correctly answer at least seventy percent of the questions on a written examination and pass a practical examination specified by the department.
- e. Initial certification. The department shall issue initial certification to persons who have completed an authorized course and passed the testing process. Persons passing the testing process between January first and June thirtieth shall be certified until June thirtieth of the second year. Persons passing the testing process between July first and December thirty-first shall be certified until June thirtieth of the third year.
- f. Recertification. The department shall recertify for a two-year period those persons who have completed the department's one-hour refresher course, written examination, and practical examination.

9. Multi-lumen airway insertion:

- a. Student prerequisite licensure. A student must be licensed as an emergency medical technician or its equivalent.
- b. Curriculum. The course curriculum must be that issued by the department entitled "Multi-Lumen Airway Module".

- c. Course coordinator. The course coordinator must be licensed as an emergency medical services instructor and must be currently certified in multi-lumen airway insertion or its equivalent.
 - d. Testing. The student must correctly answer at least seventy percent of the questions on a written examination and pass a practical examination specified by the department.
 - e. Initial certification. The department shall issue initial certification to persons who have completed an authorized course and passed the testing process. Persons passing the testing process between January first and June thirtieth shall be certified until June thirtieth of the second year. Persons passing the testing process between July first and December thirty-first shall be certified until June thirtieth of the third year.
 - f. Recertification. The department shall recertify for a two-year period those persons who have completed the department's two-hour refresher course, written examination, and practical examination.
10. Emergency vehicle operations instructor:
- a. Curriculum. The course curriculum must be that issued by the United States department of transportation, national highway traffic safety administration, in the edition specified by the department.
 - b. Course instructor. The department shall designate the course instructor.
 - c. Testing. The students must correctly answer at least seventy percent of the questions on a written examination and pass a practical examination specified by the department.
 - d. Initial certification. The department shall issue initial certification to persons who have completed an authorized course and passed the testing process. Persons passing the testing process between January first and June thirtieth shall be certified until June thirtieth of the second year. Persons passing the testing process between July first and December thirty-first shall be certified until June thirtieth of the third year.
 - e. Recertification. The department shall recertify for a two-year period those persons who have satisfactorily conducted an emergency

vehicle operations course or have audited eight hours of an emergency vehicle operator's course.

History: Effective April 1, 1992; amended effective October 1, 1992; August 1, 1994; August 1, 2003; August 1, 2004; January 1, 2006.

General Authority: NDCC 23-27-04.3

Law Implemented: NDCC 23-27-04.3

33-36-01-04.1. Training, testing, and certification standards for certification refresher courses. The department shall authorize the conduct of courses, the testing of students, and the certification of personnel when application has been made on forms provided and in the manner specified by the department contingent on the following requirements:

1. First responder refresher:
 - a. Curriculum. The course curriculum must be that issued by the United States department of transportation, national highway traffic safety administration, in the edition specified by the department.
 - b. Textbooks. The department shall approve textbooks.
 - c. Course coordinator. The course coordinator must be licensed by the department as an emergency medical services instructor and must be currently certified as a first responder or its equivalent.
 - d. Testing. The student must correctly answer at least seventy percent of the questions on a written examination specified by the department and pass all stations of a practical examination conducted by the course coordinator. The practical examination must consist of no less than one medical, one cardiopulmonary resuscitation, and one trauma station.
2. Emergency medical technician-basic refresher:
 - a. Curriculum. The course curriculum must be that issued by the United States department of transportation, national highway traffic safety administration, in the edition specified by the department.
 - b. Textbooks. The department shall approve textbooks.
 - c. Course coordinator. The course coordinator must be licensed by the department as an emergency medical services instructor and must be currently licensed as an emergency medical technician or its equivalent.
 - d. Testing. The student must correctly answer at least seventy percent of the questions on a written examination specified by

the department and pass all stations of a practical examination conducted by the course coordinator.

3. Emergency medical technician-intermediate/85 refresher:
 - a. Curriculum. The course coordinator shall select topics consistent with the reregistration requirements of the national registry.
 - b. Textbooks. The department shall approve textbooks.
 - c. Course coordinator. The course coordinator must be licensed by the department as an emergency medical services instructor and must be currently licensed as an emergency medical technician-intermediate/85 or its equivalent.
4. Emergency medical technician-intermediate/99 refresher:
 - a. Curriculum. The course coordinator shall select topics consistent with the reregistration requirements of the national registry.
 - b. Textbooks. The department shall approve textbooks.
 - c. Course coordinator. The course coordinator must be licensed by the department as an emergency medical services instructor and must be currently licensed as an emergency medical technician-intermediate/99 or its equivalent.
5. Emergency medical technician-paramedic refresher:
 - a. Curriculum. The course curriculum must be consistent with the reregistration requirements of the national registry.
 - b. Textbooks. The department shall approve textbooks.
 - c. Course coordinator. The course coordinator must be licensed by the department as an emergency medical services instructor and must be currently certified as an emergency medical technician-paramedic or its equivalent.

History: Effective August 1, 2003; amended effective January 1, 2006.

General Authority: NDCC 23-27-04.3

Law Implemented: NDCC 23-27-04.3

33-36-01-05. Revocation of certification or licensure. The department may revoke the certification or licensure of a person who:

1. Has misrepresented to others that the person is a physician, nurse, or health care provider other than the highest level for which they are certified or licensed.
2. Is incapable of properly performing the skills for which the individual has been certified or licensed.
3. Performs a skill which exceeds those allowed by the individual's level of certification or licensure.
4. Has been charged or convicted of a felony which has a direct bearing upon the person's ability to serve the public in a capacity certified or licensed by this chapter. Persons certified or licensed who have been charged or convicted of a felony must report the information to the department.
5. Has been found by a court of law to be mentally incompetent.
6. Failure to follow examination policies as a student, instructor, or course coordinator.
7. Diversion of drugs for personal or unauthorized use.
8. Performance of care in a manner inconsistent with acceptable standards or protocols.
9. Has attempted to obtain by fraud or deceit a certification or license or has submitted to the department any information that is fraudulent, deceitful, or false.
10. Has had the person's national registry certification revoked for any reason.
11. Has misrepresented to others that the person is an employee, volunteer, or agent of an ambulance service, quick response unit, or rescue squad to offer emergency medical services.

History: Effective April 1, 1992; amended effective August 1, 2003; January 1, 2006.

General Authority: NDCC 23-27-04.3

Law Implemented: NDCC 23-27-04.3

33-36-01-06. Revocation process. The department may revoke an individual's certification or license after making a diligent effort to:

1. Inform the individual by the department of the allegations.
2. Inform the individual of the department's investigation results.

3. Inform the individual of the department's intent to revoke and provide a notice of right to request hearing.
4. Provide the individual opportunity to request a hearing and rebut the allegations.

History: Effective April 1, 1992; amended effective August 1, 2003; January 1, 2006.

General Authority: NDCC 23-27-04.3

Law Implemented: NDCC 23-27-04.3

33-36-01-07. Hearing. A request for hearing must be received by the department no later than twenty days following the individual's receipt of the allegations against the individual. If a hearing is requested, the department will apply to the office of administrative hearings for appointment of a hearing officer. The department will notify any complainants and the accused of the date set for the hearing. The hearing officer will conduct the hearing and prepare recommended findings of fact and conclusions of law as well as a recommended order for the department. The department shall notify the individual of its findings in writing after receiving the attorney general's finding of fact, conclusion of law, and recommended order.

History: Effective April 1, 1992.

General Authority: NDCC 23-27-04.3

Law Implemented: NDCC 23-27-04.3

33-36-01-08. Waivers. Based on each individual case, the department may waive any provisions of this chapter that may result in unreasonable hardship upon the individual or the individual's emergency medical service agency, provided such a waiver does not adversely affect the health and safety of patients. The department will consider waivers for the following situations and conditions:

1. A person had completed all the requirements for recertification or relicensure and a good-faith effort was made by that person to recertify with the national registry and by no fault of the person recertification was not granted.
2. A person who was current in the person's certification or license was called to active duty in the United States armed forces and deployed to an area without the resources to maintain the person's certification or license resulting in a lapse of the person's certification or license.
3. A waiver may be granted for a specific period of time not to exceed one year and shall expire on June thirtieth of each year.

History: Effective January 1, 2006.
